Dear Sister & Brother Trade Unionists:

Many central labor councils are devoting their March or April meeting to the healthcare crisis in our country. Some are organizing to show the movie SiCKO.

Physicians for a National health Program (PNHP) is a 15,000-member organization of medical doctors who support HR 676, Rep. John Conyers' (D-MI) single payer healthcare legislation. Our website, [www.pnhp.org](http://www.pnhp.org), is the main resource center for those seeking accurate information on the healthcare crisis and its solution.

**We are prepared to provide a member of PNHP to speak at your March or April (or subsequent) meeting.**

Opponents of a decent health care system for our country have virtually unlimited funds to wage a campaign to maintain the status quo. To win the right to healthcare for all will take an educated and organized public. The labor movement, as always, is vital to any successful effort to achieve this lofty and necessary goal.

If you would like to have a PNHP member speak at your March or April meeting, or if you would like to organize a presentation at a future meeting, please contact us at [info@pnhp.org](mailto:info@pnhp.org) or 312-782-6006.

Cordially,

Quentin Young, M.D.  
National Coordinator
